Man's Hospital Slippers.

(KNITTED).

Materials required :

- 4 ozs. Baldwin & Walker's LADYSHIP PRIMROSE FLEECY WOOL.
- 1 Pair Knitting Needles, No. 6.
- 1 Pair Fleecy Lined Soles, size 10.

IMPORTANT—As different dye-lots should not be worked into the same garment, it is most important that you should make sure of having sufficient wool from the one dye-lot to complete the garment. Each dye-lot has a different letter which is shown on the label of the bundle or box.

Tension : taken before pressing, 7 stitches to 1 inch in width.
6 rows to 1 inch in depth.

NOTE.—If the needles stated do not produce this tension, try different sizes until you get it correct.

Alteration in Size.—For a larger Slipper, use thicker needles, or a size which produces fewer stitches to the inch. For a smaller Slipper, use finer needles, or a size which produces more stitches to the inch.

Abbreviations.—K, knit ; P, purl ; sts., stitches ; tog., together ; rep., repeat.

THE BACK.

Begin by making a foundation of 31 chain.

1st row. Miss the first ch. from hook, then work 1 d.c. into each of the remaining 30 chain, 1 ch., turn.

2nd row. 1 d.c. into each of the first 20 d.c. of previous row (work into the back strand of each d.c. only throughout the making of the slipper), 2 chain, miss 2 d.c. of previous row. 1 d.c. into each of the remaining 8 d.c.

Rep. these 2 rows 35 times more (72 rows in all) then the 1st. row again.

Break off the wool.

Rejoin the wool to the 3 d.c. from the top edge (i.e. the edge nearest the holes) with 1 d.c., 7 ch., miss 6 d.c., 1 d.c. into the next d.c., turn and work 12 d.c. over the loop of 7 ch., 1 d.c. into the d.c. where you joined the wool (this completes the buttonhole loop). Continue all along the top edge of slipper

as follows :— * 3 ch., 1 d.c. between the next 2 ridges. Rep. from * along the top edge, then make a buttonhole at the other side in the same way as stated for the first buttonhole loop. Fasten off securely.

THE VAMP.

Begin at the toe—leaving a length of wool a few inches—by making 12 chain and work as follows :—

- 1st row.* Miss the ch. next the hook, 1 d.c. into each of the next 5 ch., 3 d.c. into the next ch., 2 d.c. into each of the remaining 5 ch., 1 ch. turn.
- 2nd row.* 1 d.c. into each of the first 6 d.c. of previous row, 3 d.c. into the next d.c. (centre d.c.) 1 d.c. into each of the remaining 6 d.c. of previous row, 1 ch., turn.
- 3rd row.* 1 d.c. into each d.c. of previous row to the centre, 3 d.c. into the centre d.c. of previous row, 1 d.c. into each d.c. to end of row, 1 ch., turn.

Continue to work in this way, working 1 d.c. more before working 3 d.c. into the centre st., and 1 d.c. more after the centre st. until you have worked 32 rows in all. (16 ridges).

Fasten off securely.

Thread the end of wool left at the beginning of toe through a wool needle and neatly join the centre seam of toe.

Make a second slipper in the same way.

TO MAKE UP.

Press each piece carefully on the wrong side with a warm iron over a slightly damp cloth. Overlap the side edges of the back over the vamp for about 3 ridges, then neatly sew—beginning at the lower edge—to a depth of two to three inches. Pin the knitting or crochet neatly to the slipper sole easing it around the toe—placing the centre toe of work to centre toe of sole and neatly sew the sole into place on the wrong side. It is better to stretch the work slightly around the instep to give the slipper a good shape and to ease it around the back of heel.

Turn down the top point of the crochet Vamp for about 1 inch and sew on the button.

Using the wool double, make a crochet chain about 33 inches long, thread through the holes, then make a small medallion at each end of the cord and sew neatly. This will stop the cord from pulling through the holes.

For the knitted slipper a twisted cord can be made if preferred.
